Theatre Presentation

We believe that every child is unique. Each one comes from a different background and has a different style of learning which needs to be understood by the school.

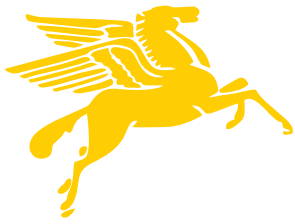

Vidyashram strives to understand and fulfill the individual needs of every learner. At Vidyashram, we teach our children "how to learn" and not "what to learn". We encourage them to explore, experience, experiment and discover their own path through our creative learning processes. We have an education system that builds the character of students and empower them in all aspects of mental, physical, emotional, social and spiritual growth.
